THE MOST SUCCESSFUL BOOK OF THE SEASON;

From the London American Times.

Dr. Livingston has written of Captain Archibald Scott, of the 5th Regt. of the U. S. Cavalry, and his gallant services in the Mexican War, and of his subsequent career, and his services in the Civil War. He has also produced a book of travel of most absorbing interest than now before him. It is certainly a remarkable book—replete with facts and incidents, and the scenes and regions traversed by the writer, but for the charming grace and dignity with which he tells his story. We know something of the practices of the American Indians, and of their manners and customs, and of their language, and of their social life, and of their religious rites, as well as an English man who with clear information regarding America, to whom it was given to travel there every year, as well as an Englishman who with clear information regarding America, to whom it was given to travel there every year.

For sale at the Booksellers, or send me post paid, for \$2. Address all orders for any book at a time, to the Publishers.
